

PERSIDANGAN AKAUNTAN SEKTOR AWAM KEBANGSAAN KE 30 TAHUN 2022

NATIONAL PUBLIC SECTOR ACCOUNTANTS CONFERENCE (NAPSAC)

**Accelerating Digital
Transformation and Innovation:
Helping Government in Post-
Pandemic Recovery and
Resilience**

SESSION 1 – 18 MAY 2022

Ts. AZLINA AZMAN

Undersecretary

Information Management Division

Ministry of Education

Accuracy is one of the most critical in communication

DIGITISATION

DIGITALISATION

DIGITAL TRANSFORMATION

A hand in a dark suit sleeve is shown holding a glowing, interconnected network of white nodes and lines. The background is a soft-focus, light-colored environment with a bokeh effect. The network structure is composed of numerous white circular nodes connected by thin white lines, creating a complex web-like pattern. The hand is positioned in the lower-left quadrant, with the fingers slightly curled as if supporting the glowing structure. The overall aesthetic is clean, modern, and technological.

DIGITISATION refers to creating a digital representation of physical objects or attributes

DIGITALIZATION refers to enabling or improving processes by leveraging digital technologies and digitized data

DIGITAL TRANSFORMATION is really business transformation enabled by digitalization

“DIGITAL SHOULD BE SEEN LESS AS A THING AND MORE OF A WAY OF DOING THINGS”

The point of digital transformation is not to become digital. It is about how we generate value for the business.

INNOVATION?

Something new, such as an invention, or the practice of developing and introducing new things.

An innovation is often a new product, but it can also be a new way of doing something or even a new way of thinking.

COVID-19 has created an urgent
need for us to accelerate our
digitalisation efforts.

Before the pandemic, digitalisation moved at a steady pace.

- Leaders wanted more proof of success.
- They didn't feel great urgency.
- Organizational culture seemed resistant.
- Capabilities and talent were thought to be lacking.

When the pandemic struck, things moved fast.

- Many employees started to work remotely.
- Enterprises ramped up digital engagement with customers.
- Cost structures were often reduced.
- Digital products and services thrived; most analog businesses suffered.

POST

PANDEMIC

WORLD

The COVID-19 crisis has accelerated the digitization of customer interactions by several years.

Average share of customer interactions that are digital, %

■ Precrisis ■ COVID-19 crisis

¹Years ahead of the average rate of adoption from 2017 to 2019.

Across business areas, the largest leap in digitization is the share of offerings that are digital in nature.

Average share of products and/or services that are partially or fully digitized, %

¹Years ahead of the average rate of adoption from 2017 to 2019.

Common Themes of Recovery Plans Across the World

Sustainability and Green Energy

- Supply Chain Self-Sufficiency
- Waste Reduction
- Solar
- Net-Zero Building
- Green Manufacturing

Transportation and Mobility

- Mass Transit Infrastructure
- Green Buses/Vehicles
- Intelligent Transportation
- Smart People Movement

Competitive Economy

- Manufacturing
- Technology
- STEM Investment
- Innovation Funding
- Business Revitalization
- Education
- Healthcare

Digitalization and Innovation

- Innovation Hubs/Centers
- Research Investment
- Digital Government
- Public-Private Partnerships
- Healthcare Systems

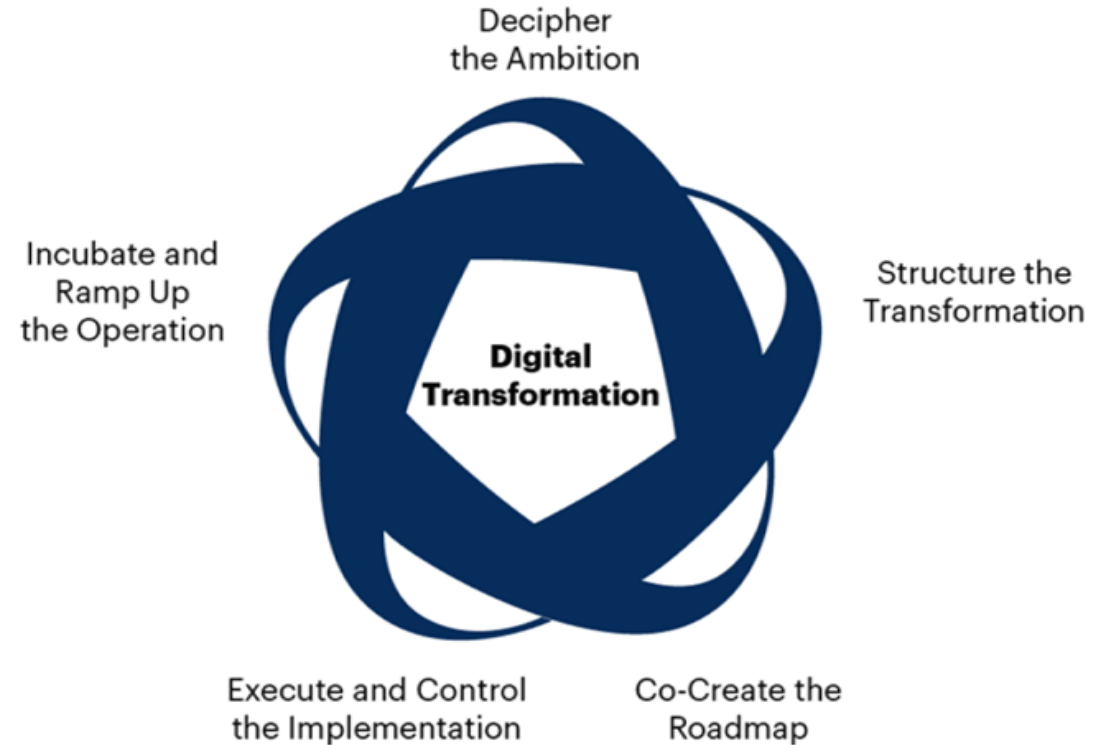

Digital Infrastructure, Broadband, 5G, Connectivity, Digital Equity

When the **WHY**
is clear, the **HOW**
becomes easy

Decipher the ambition
Structure the transformation
Co-create the roadmap
Execute and control the implementation
Incubate and ramp up

Implementation of Digital Transformation

Source: Gartner

PEOPLE

PROCESS

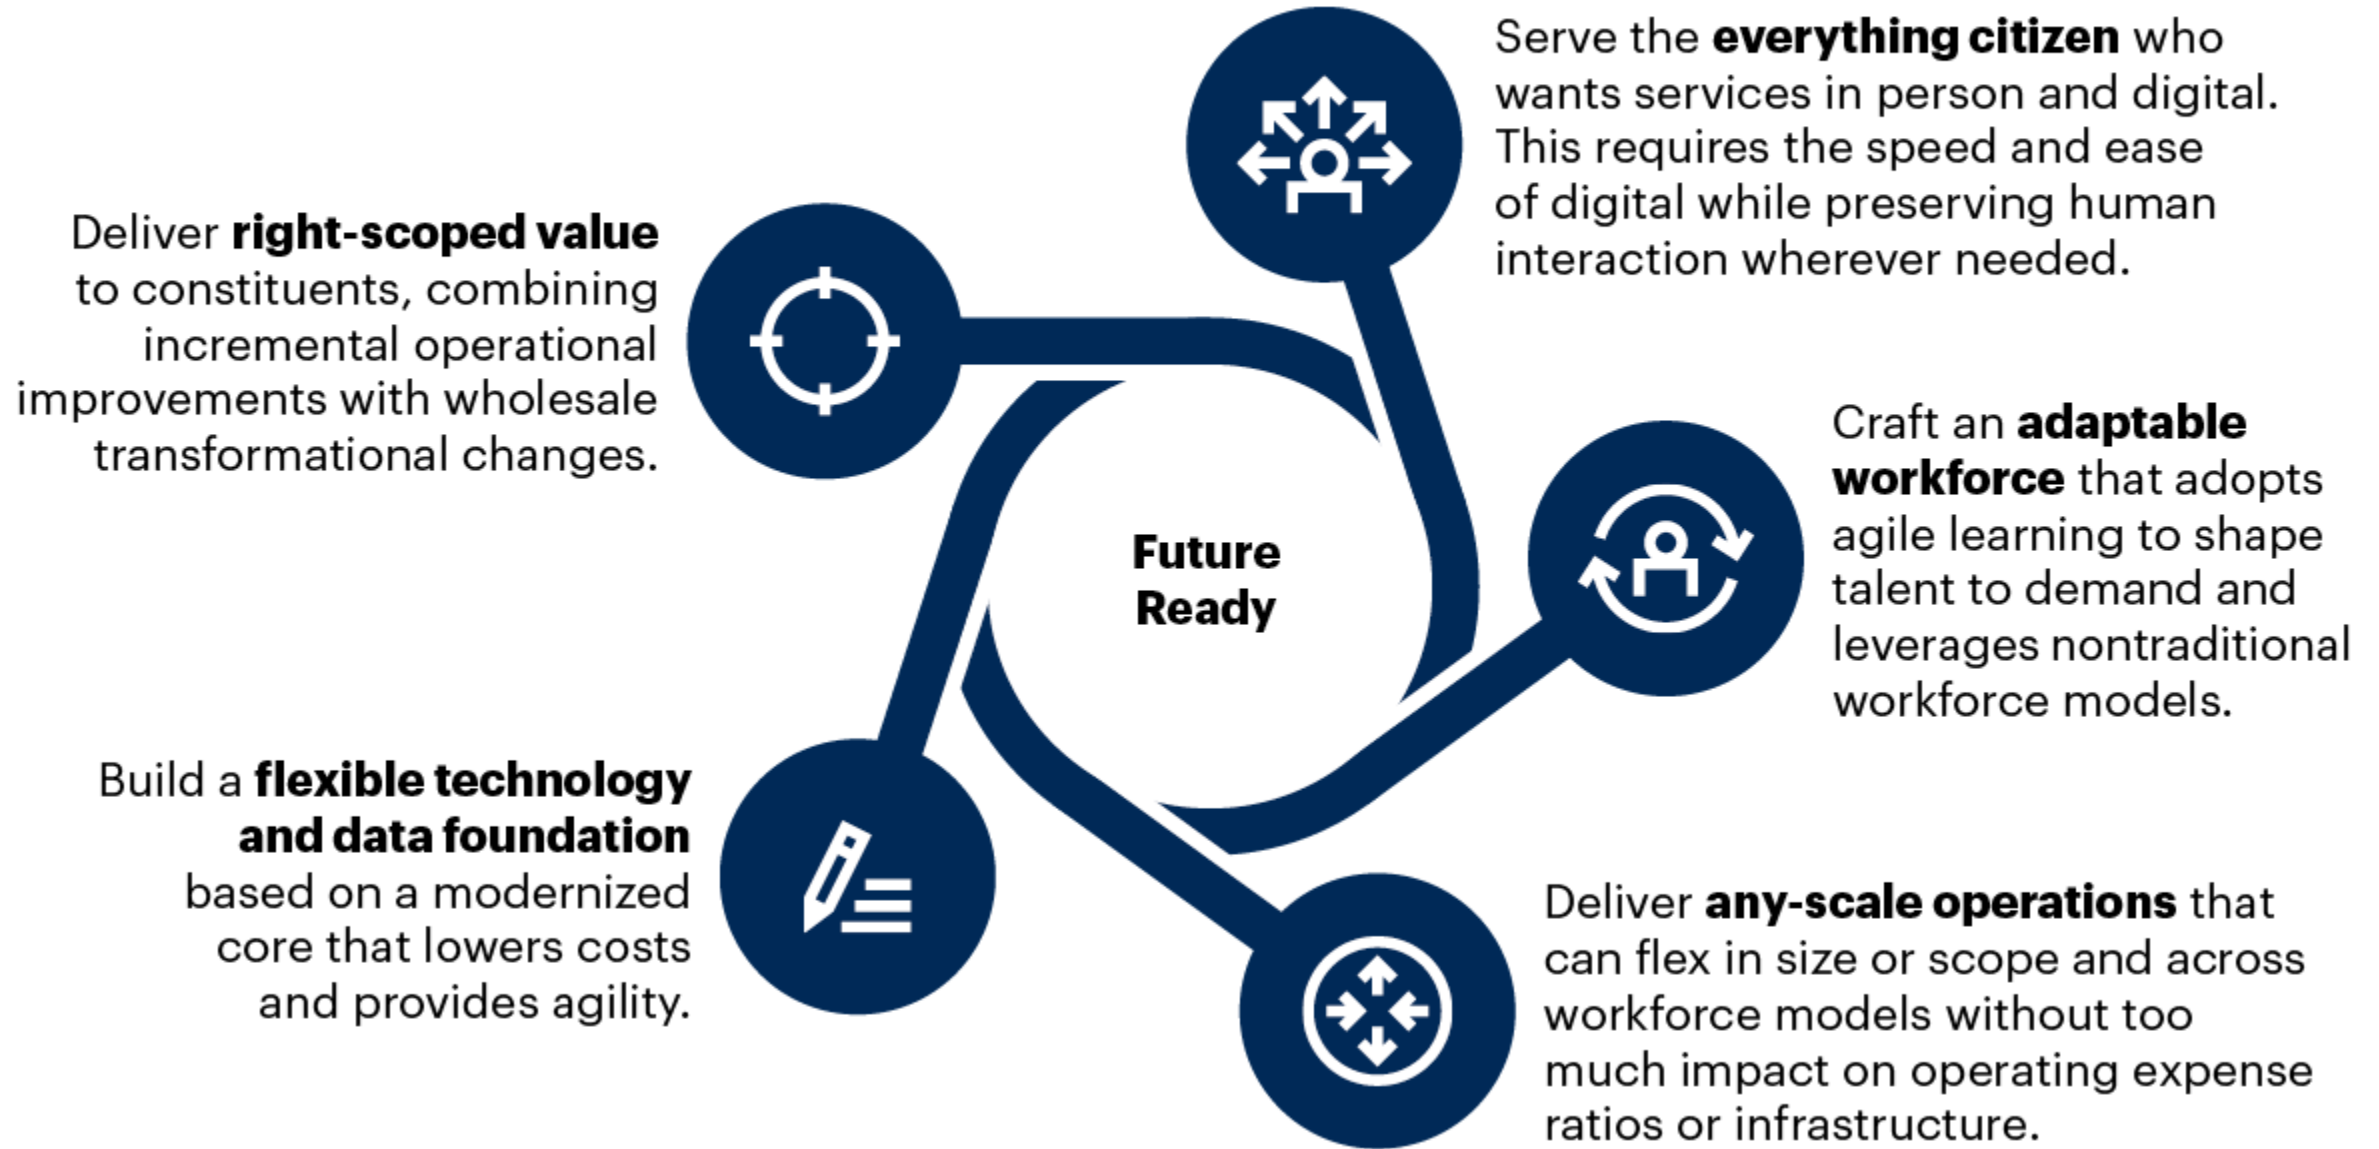

TECHNOLOGY

When digital transformation is done right, it's like a caterpillar turning into a butterfly but when done wrong, all you have is a really fast caterpillar

- George Westerman, MIT Sloan Initiative on Digital Economy

Aiming to Build a Future-Ready Public Sector Organization Over Time

A hand is shown holding a blue checkmark. Below it, the word 'VALUE' is spelled out using wooden letters. The background is a textured, light-colored surface.

Digital is here to stay

**Fit for purpose,
Future Proof
and Holistic**

VALUE

**End Game is not about us, it is about what we value
we bring to our stakeholders**

A rustic, handmade card made of brown cardboard is the central focus. The words "Thank you!" are written in a black, cursive script. A black string is threaded through a hole on the left side of the card. To the right of the card, a single white daisy with a bright yellow center is in sharp focus. In the background, two more daisies are visible but out of focus. The entire scene is set on a light-colored, textured wooden surface.

Thank
you!
